
PRINCESS V72

PRINCESS

PRINCESS V72

With the latest infusion technology and a modified deep V hull the V72 provides new levels of performance and handling.

The sociable aft cockpit features a U-shaped dining area and fully-equipped wet bar. A wide sun bed extends over the aft deck which accommodates both the tender garage and twin en-suite crew cabin.

The submersible bathing platform makes water sports a real pleasure and is also large enough to hold a tender or jet-ski as required.

The exterior entertaining spaces are complemented by a fore-deck seating area and sun bed which provide a convenient alternative location to relax.

The main deck is large enough to accommodate both a spacious saloon and a separate circular dining area which shares the open-air flexibility of the sliding hard top with the helm.

The lower accommodation consists of three en-suite cabins finished with the highest level of detailing throughout. The starboard twin cabin can be fitted with a powered sliding berth to create a third double as required.
